

CORE Edge Infrastructure

Target Manufacturer — Not Yet Contracted

Outdoor and telecom cabinets, micro data centers and IP/IK-rated enclosures for edge computing deployments outside the traditional data hall.

ETA
Canzo / Albavilla, Italy

Founded in 1978 (the name derives from founder Antonio Turati — "Eredi Turati Antonio"), ETA S.p.A. is an ISO 9001-certified Italian manufacturer of steel, stainless-steel and extruded-aluminum enclosures, with two production sites in Italy and a presence in 40+ countries. Its E NUX modular cabinet system reaches IP55 / NEMA 12 / IK10 ratings.

FOUNDED 1978	CERTIFICATIONS ISO 9001
PRODUCTION SITES 2, Italy	RATINGS Up to IP55 / IK10 (E NUX)
[E NUX Modular Cabinets] [E MOX Monobloc] [Wall-mount Enclosures] [Stainless Steel]	

WHY WE CHOSE THIS PARTNER

A modular, metal-enclosure specialist with strong impact and ingress ratings gives CORE a robust outdoor cabinet option for telecom and industrial edge sites where mechanical protection matters most.

Fibox
Espoo, Finland

Founded in 1966 as a pioneer of injection-molded polycarbonate enclosures, privately held Fibox Group is now one of the largest enclosure manufacturers in the world, with plants in Finland, Germany, Korea and China, ISO 9001 certification (since 1994) and UL, CSA, FIMKO, DNV and LR listings across a catalog of 2,000+ enclosure variants.

FOUNDED 1966	CERTIFICATIONS ISO 9001, UL, CSA, FIMKO, DNV, LR
PRODUCTION Finland, Germany, Korea, China	OWNERSHIP Privately held
[Polycarbonate Enclosures] [Outdoor / IP-rated] [Telecom Cabinets] [Custom Molding]	

WHY WE CHOSE THIS PARTNER

A far larger catalog (2,000+ variants), broader certification set and lighter polymer construction complement ETA's metal enclosures, giving CORE both material options across edge and telecom use cases.
