

CORE Intelligent Power

Target Manufacturer — Not Yet Contracted

Rack PDUs — basic, metered and switched — plus environmental and power monitoring, sourced from two manufacturers built specifically around configurable, in-house PDU engineering.

■■ Schleifenbauer

's-Hertogenbosch, Netherlands

Founded in 2008, Schleifenbauer is described as the only Dutch manufacturer producing fully customized PDUs, configuring intelligent and non-intelligent rack PDUs and inline energy meters in-house, with ISO 9001:2015 certification and delivery in as little as four weeks.

FOUNDED
2008

HQ / PRODUCTION
's-Hertogenbosch, NL (single site)

CERTIFICATIONS
ISO 9001:2015

MODEL
Configure-to-order

[Basic PDU] [Metered PDU] [Switched PDU] [Inline Energy Meters] [OEM Private Label]

WHY WE CHOSE THIS PARTNER

Fully bespoke, made-to-order PDU manufacturing with short lead times gives CORE flexibility to match exact regional voltage, plug and monitoring requirements without relying on a generic catalog SKU.

■■ Bachmann

Stuttgart, Germany

The owner-managed BACHMANN Group, founded in 1947 and based in Stuttgart, employs around 800 people across production and development centers in Germany, Romania and China. Its BlueNet series covers basic to fully intelligent, remotely switched IT-PDUs designed and engineered in Germany.

FOUNDED
1947

EMPLOYEES
~800 (Group)

PRODUCTION
Germany, Romania, China

OWNERSHIP
Owner-managed / family

[BlueNet PDU Series] [Environmental Monitoring] [ZeroU / 1U Formats] [Country-specific Connectors]

WHY WE CHOSE THIS PARTNER

A modular, German-engineered PDU range at meaningfully larger production scale than Schleifenbauer gives CORE a second power-distribution supplier for higher-volume, standardized deployments.
