

DIVISION 03

CORE Fiber Systems

Target Manufacturer — Not Yet Contracted

Optical distribution frames, MPO systems, pre-terminated fiber, fiber panels and shelves — the high-density optical layer for hyperscale and colocation halls.

■■ R&M; Wetzikon, Switzerland

Reichle & De-Massari AG, founded in 1964 by Hans Reichle and Renato De-Massari, is an independent, family-owned Swiss connectivity manufacturer with roughly 10 production sites and market organizations in 30–40+ countries. R&M; covers the full copper and fiber connectivity range for data centers, LANs and public networks.

FOUNDED 1964	EMPLOYEES ~1,000–1,500 (Group)
REVENUE CHF ~280–300M	OWNERSHIP Family-owned

[ODF] [MPO Systems] [Fiber Panels & Shelves] [Pre-terminated Fiber] [High Density]

WHY WE CHOSE THIS PARTNER

Over 60 years of Swiss precision engineering and family ownership — supporting a stable, long-term relationship — with a range spanning both fiber and copper, letting CORE consolidate suppliers between this division and Structured Cabling (04).

Official site: <https://www.rdm.com>

■■ Hexatronic Gothenburg, Sweden

Hexatronic Group AB, founded in 1993 and listed on Nasdaq Stockholm (HTRO), is a technology group specialized in fiber optic communications, organized around Fiber Solutions, Harsh Environment and Data Center business areas, with roughly 40 operating units and ~2,000 employees.

FOUNDED 1993	EMPLOYEES ~2,000 (Group)
LISTING Nasdaq Stockholm: HTRO	OWNERSHIP Publicly traded

[Fiber Cables] [Cabinets & Pedestals] [Splitters] [Rack Systems] [FTTH / Access]

WHY WE CHOSE THIS PARTNER

A dedicated Data Center business unit and public-company scale bring financial transparency and catalog depth (cables, cabinets, splitters) that complements R&M;'s connector- and panel-level focus.
