

DIVISION 04

CORE Structured Cabling

Target Manufacturer — Not Yet Contracted

Copper and fiber structured cabling for the data center and campus layer — Category 6A/8 systems, patch panels, patch cords and tested, warrantied cabling systems.

■■ R&M; Wetzikon, Switzerland

R&M;'s core skill is connecting and distribution technology for both copper and fiber-optic networks, spanning LAN & building automation, data centers and public networks — see full profile in Division 03.

OWNERSHIP
Family-owned

[Copper Systems] [Cat. 6A / 8] [Patch Panels & Cords] [Fiber Connectivity]

WHY WE CHOSE THIS PARTNER

Already a strategic target in Division 03; consolidating copper and fiber structured cabling under one Swiss supplier simplifies procurement and warranty management for CORE.

■■ Dätwyler Altdorf, Switzerland

Dätwyler IT Infra (formerly Datwyler Cabling Solutions) traces to the 1915 founding of the Swiss Dätwyler group in Altdorf. Its cabling arm has historically run roughly 950–1,000 employees and around CHF 245M in revenue, supplying copper and fiber cabling systems for data centers, fiber networks and intelligent buildings from Switzerland with affiliates across Europe, the Middle East and Asia.

WHY WE CHOSE THIS PARTNER

A century-old Swiss industrial group with a dedicated IT infrastructure arm and an existing international affiliate network, giving CORE a second, independent Swiss cabling option alongside R&M.;
